WHAT HAPPENS IF I REGISTER WITH MY PERSONAL ACCOUNT

The Ride Pingo service is available only for company employees only, for that reason rider accounts need to be registered with your company address. Our system checks the email address upon creation of the account. If you register with your personal email address, you require to delete your account and will require to create a new account.

NOTE: Changing your email address in your profile will not resolve this.

How do I delete or edit my profile?

To delete your account or change your profile info, click “View Profile” at the top right of the sidebar. You can change your name, email, phone number or password and then click Save to save the changes. If you want to delete your profile, select “Delete account” at the bottom of the page and then Confirm when prompted.

SELECTING YOUR ORIGIN AND DESTINATION

- Your pickup location is set to your current location by default.
 - If you would like to select a different pickup location, tap 'Current Location' and input your pickup location.
- Tap 'Where To?' and enter your drop off location. You can either manually type in your location or select 'Pin on map'.
- For this program, the app will display only 2 options:
 - Schiedam Station
 - Haven - Havenstraat
